**4.19 - SITE PLAN REVIEW:**

**A - Purpose**

Having prepared and adapted a Township Zoning Code and established a continuing planning process, site plan review criteria are hereby established to achieve, among others, the following purpose:

- 1 - To provide a system of site development controls that provide for the integration of new developments with the surrounding environment such that all development features including buildings, driveways, parking areas, open spaces, lighting, etc. are so located and related as to minimize the adverse impacts upon adjacent properties.
- 2 - To provide a system of site development controls so that the community will know the quality of new developments that will be approved.
- 3 - To provide assurance that a single development or one built in stages will be completed in accord with the approved design.
- 4 - To assure the proposals will be developed in accord with the objectives and policies of the Township Plan.

**B - Review Required**

Site plans shall be reviewed by the Township Zoning Commission as required by this section for all multi-family, or four (4) or more single family dwellings in the Residential District and for all uses in Commercial and Industrial Districts. The Zoning Commission may find that a site plan review is not required where no changes are proposed for an existing site or where only inconsequential changes are proposed.

**GENERAL REGULATIONS** (Continued)  
**SECTION 4**

**C - Application for Plan Approval**

An application for approval of a detailed site plan shall be filed with the Zoning Commission. The application may be filed by the developer on behalf of the land owner, or by a group of owners of the land of the development area, acting jointly. The application shall include, nine (9) copies of the following maps, designs, and supporting documents:

- 1 - A property location map and topographic survey of the proposed development area, including property lines, easements, street right-of-ways, topographic contours at two (2) foot intervals, existing structures and landscape features.
- 2 - Preliminary plans of the development, include the following elements:

  - e - Erosion control and storm water management measures.
  - f - Existing wooded area and large isolated trees, one (1) foot or more in diameter.
  - g - Location of necessary fire ponds.
- 3 - Supplementary documents, including:
  - a - The substance of covenants, grants of easements, or the restrictions proposed to be imposed upon the use or maintenance of lands and buildings.
  - b - Such other reasonable information as the Zoning Commission may require.

**GENERAL REGULATIONS** (Continued)

**SECTION 4**

4 - The developer shall deposit a certified check payable to Guilford Township in the amount as established by the schedule of fees, to be credited to the general fund for the exclusive use of defraying any expense incurred by the Township for items such as, the cost of services in connection with reviewing the plan and preparing reports, the publication and mailing of public notices in connection therewith, and any other reasonable expenses directly attributable thereto. The developer shall be required to cover any such additional expenses prior to the Zoning Commission's final approval. Upon completion of action on the Preliminary Plan, any unexpended balance of this shall be returned to the developer.

**D - Referral for Review and Reports**

Upon receipt of an application for a site plan review, the Zoning Commission may seek expert advice and recommendations from the County Engineer, the County Planning Commission, and/or other County agencies or private consultants. The Zoning Commission shall refer copies to the Township Trustees and the Zoning Inspector for their recommendations. The cost of receiving such expert assistance shall be borne by the applicant.

**E - Final Plan**

Upon approval of the application with specific changes or conditions, the developer shall prepare and submit to the Zoning Commission a modified plan. The modified plan shall include all modifications required by the Zoning Commission's grant of approval. The Zoning Commission shall act on the modified plan at its regular scheduled meeting after the submission of that plan. Upon approval of the modified plan by the Zoning Commission, the Zoning Commission will direct the issuance of a zoning certificate for the use. A modified plan is not required if the original application is approved by the Zoning Commission with no changes or conditions.

**F - Review Criteria**

Criteria utilized by the Zoning Commission during the review process shall include, but not limited to, the following:

- 1 - The site plan shows a proper relationship exists between thoroughfares, service roads, driveways and parking areas, and the requirements of this resolution.
- 2 - All development features, including the principal buildings, open spaces, service roads, driveways, parking areas and signs, are so located and related as to minimize the possibility of any adverse effects upon adjacent development.

**GENERAL REGULATIONS** (Continued)

**SECTION 4**

3 - Grading, surface drainage and sediment control provisions comply with applicable Medina County Engineering Code for Subdivision Development.

4 - The design and construction standards of all streets and any public improvements shall conform to the provisions of the Medina County Engineering Code for Subdivision Regulations.

5 - Maximum possible privacy for adjacent residential properties shall be provided through good design and use of the proper building materials and landscaping. Visual privacy shall be provided through structural screening and/or landscaping treatment.

6 - The architectural design of buildings shall be developed with consideration given to the relationship of adjacent development in terms of building height, mass, texture, materials, line and pattern, and character.

7 - Building location and placement shall be developed to minimize removal of trees and change of topography. Additional tree plantings shall be encouraged on certain sites.

8 - On-site traffic circulation shall be designed as to make possible adequate fire and police protection.

9 - Lighting shall be designed as to create neither hazard nor a nuisance to adjacent properties and uses.

10 - Trash storage and other outdoor storage areas shall be screened from adjacent properties and/or from adjacent streets. Such facilities and screening shall be depicted on the site plan, with architectural renderings of the facilities and screening.

11 - The plan shall substantially conform to the concepts expressed in the adopted Township Zoning Code and to the intent and substance of the zoning district.

12 - In case of an industrial use, the adequate provision shall be made for the disposal of industrial wastes. Wastes containing poisonous, corrosive, flammable, or explosive solids, liquids, oils, or gases shall not be discharged into the sanitary sewer or water courses.

**GENERAL REGULATIONS** (Continued)

**SECTION 4**

13 - Grading and surface drainage provisions shall be designed to minimize adverse effects on abutting properties, streams, and public roads and to minimize the possibility of erosion. The Zoning Commission may require that such grading plans be reviewed by a professional engineer, when outside the scope of the County Storm Water Management provisions, with any costs borne by the developer. The costs of any unusual means necessary to alleviate surface damage problems on adjacent property due to development shall be borne by the developer of the property causing the problem.

14 - All multi-family uses, commercial, industrial uses, and other such uses as specifically required shall have a fire inspection done before any business of any type is conducted in the building or on the premises.

**G - Conformance with Approval Plan**

1 - The use, placement, and dimensions of all buildings, driveways, sidewalks, parking areas, curb cuts and the installation of landscaping, fences and walks shall conform to the approved final plan.

2 - A performance bond or other financial guarantee shall be placed with the Guilford Township Trustees to insure the installation of the landscaping, the hard surfacing of private drives and parking areas, and the surface water drainage, all in conformance with approved plans. This financial guarantee shall be in an amount equal to either; (1) - The estimated cost of installing said amenities or; (2) - Ten percent (10%) of the estimated cost of the total project, whichever is greater. In a phase project, this applies to each individual phase.

**H - Issuance and Revocation of Zoning Certificate**

Upon the approval of the site plan application and the deposit of a performance bond or other financial guarantee in an appropriate amount, the Zoning Inspector shall issue a Zoning Certificate specifying the conditions of the approval. Approval of a site plan and the Zoning Certificate, if any, however, shall be automatically revoked if construction has not begun within one (1) year after the date of approval.

At the expiration of one (1) year, any deposit or performance bond or financial guarantee shall be returned to the depositor and each reapplication thereafter shall be accompanied by the required data and fees.

(Amend 8/12/99; Effective 9/11/99)
